

REQUEST FORM FOR NASA ECLIPSE BULLETINS

NASA eclipse bulletins contain detailed predictions, maps and meteorology for future central solar eclipses of interest. Published as part of NASA's Technical Publication (TP) series, the bulletins are prepared in cooperation with the Working Group on Eclipses of the International Astronomical Union and are provided as a public service to both the professional and lay communities, including educators and the media. In order to allow a reasonable lead time for planning purposes, subsequent bulletins will be published 18 to 24 months before each event. Comments, suggestions and corrections are solicited to improve the content and layout in subsequent editions of this publication series.

Single copies of the bulletins are available at no cost and may be ordered by sending a 9 x 12 inch SASE (self addressed stamped envelope) with sufficient postage for each bulletin (12 oz. or 340 g). Use stamps only since cash or checks cannot be accepted. Requests within the U. S. may use the Postal Service's Priority Mail. Please print either the eclipse date (year & month) or NASA publication number in the lower left corner of the SASE and return with this completed form to either of the authors. Requests from outside the U. S. and Canada may use ten international postal coupons to cover postage. Exceptions to the postage requirements will be made for international requests where political or economic restraints prevent the transfer of funds to other countries. Professional researchers and scientists are exempt from the SASE requirements provided the request comes on their official or institutional stationery.

Permission is freely granted to reproduce any portion of this NASA Reference Publication. All uses and/or publication of this material should be accompanied by an appropriate acknowledgment of the source.

Request for: NASA TP-2008-214169 — Total Solar Eclipse of 2009 July 22
